Programme Overview	The training programmes are designed to enhance the professional development of science teachers and educators across SEAMEO Member Countries, a key focus area of the Centre's core operations, aligning with its strategic objectives. In this regard, the Centre will continue to offer relevant courses and workshops that provide advanced knowledge in science education. These courses will be facilitated by science education specialists from the Centre's Training and Research Division.
Key Learning Outcomes	This course aims to equip participants with the notion of classroom assessment as an integral part of science instruction. Upon completion of the course, the participants will be able to: 1. Assessment in science teaching aligns with instruction, pedagogy, and curriculum, focusing on diverse purposes and practices. 2. Integrating technology and alternative assessments enhances monitoring, while instructional design ensures congruence with content and pedagogy.
Why should you attend?	1. Enhance science teaching by integrating alternative assessments that foster critical thinking and hands-on learning. 2. Master strategies like portfolios and rubrics to track progress. 3. Advancing professional growth and aligning with modern trends.
